« Zero energy »

Olympe-de-Gouges Groupe scolaire

The project's urban location in the middle of block with an inhabited perimeter demanded a specific architectural response. The school complex is accessed via a public passageway traversing the plot from east to west. The architectural solution thus creates a balance between interiority and exteriority. The project responds to the diversity of the surrounding architecture and urban elements with the simplicity of a unifying, homogenous, gentle form, whose swaying, shifting curves envelop the exterior spaces. The impression of lightness is accentuated by the glass panels' inverted scales, which give the building an organic sparkle.

Simultaneously, we searched for the most advantageous position in terms of the sun, and for natural light to penetrate given the compactness of the building, under the low-energy project. The building is therefore situated along the north of the parcel to receive a maximum of solar energy through its roof and façades.

PROGRAMME
Olympe-de-Gouges' school complex, nursery school and primary school (18 classes)

SITE
Arcueil (94)

AREA
4,729 m² SHON

BUDGET
11.2 M€ ex. VAT

CLIENT
Sadev 94

TEAM
TVK: *architects urbanists*
EVP: *structural engineering*
INEX: *M.E.P*
MDETC: *surveyor*
Franck Boutté: *HEQ*
Vulcanéo: *Fire security system engineering*

PERFORMANCE & CERTIFICATIONS
- « Zero Energy »
- HEQ approach

MISSION
Complete

VIDEO
*A school for children /
A home for students*
